

Foster care is a program for children in state custody who are unable to remain safely in their home. Children in foster care stay with a family who provides safety, nurturing, support and role models for change. Foster care is meant to be a temporary, short term solution to an emergency.

Important to know:

- Whenever possible, YSB preserves the child's family. A child should be separated from his or her family only when the family is absent or is unwilling or unable to provide a minimally acceptable family life.
- **The purpose of foster care** is to provide safety, continuity, consistency and permanency in a family setting for the growing child. When returning home is not possible, alternative permanent plans must be pursued.
- **Current foster care policy** directs the case worker to appropriate service delivery and timely permanent planning decisions.

To improve results for children and families in the foster care system, four key strategies are used:

1. Active community partnership
2. Neighborhood-based recruitment and retention of foster homes
3. Self evaluation and data driven decisions
4. Team decision meetings involving both birth parents and foster parents, when appropriate.

Give families a chance:

The YSB Foster Care program offers a variety of foster care experiences:

- Emergency Foster Care
- Short-Term Respite Foster Care
- Traditional Foster Care
- Specialized Foster Care

Training & Support Services

- Pre-service and ongoing foster parent training
- Financial reimbursement for room and board
- Clothing and personal allowance
- Reimbursement for travel when excessive, with prior approval
- Foster parent support
